

Dear executives/board members/powers-that-be:

Your company is an important part of the library ecosystem, and I am glad you are exhibiting at ALA Midwinter 2012.

But I must protest your company's support of the Stop Online Piracy Act. As a library professional, I believe that SOPA would lead to censorship and create a chilling effect that is counter to principles of free speech.

I believe that in the long run, supporting this legislation will drive a wedge between your company and the people who buy your products or services.

Speak out now and revoke your company's support of SOPA.

Signed,
Your customer and LSW member

NOTE: I speak only for myself and not my employer, the ALA, or any other person, entity, or cabal.

ANOTHER NOTE: The people who work your booth are great! Give them a bonus!
